## **DETAILED ACTION**

### ***Examiner's Amendment***

Claims 24, 54 and 56 have been allowed over the prior art.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Beyer on March 23, 2004.

The application has been amended as follows: cancel non-elected claims 23 and 52.

### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: Prior art could not be located that taught a method of assembling a printed circuit board comprising stacking two chips by "securing said first stacking surface to said second stacking surface; securing a single decoupling capacitor to said second active surface; providing a pair of conductive lines, each of said conductive lines connecting a terminal of said decoupling capacitor, a bond pad on said second active surface, and a conductive contact on said first surface of said substrate". This limitation, in conjunction with the other claim limitations, was neither disclosed in, nor suggested by, the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
